Waste Minimisation Policy

The Yard, Prees Heath, Whitchurch, Shropshire, SY13 3JX

McFour Ltd has completed a system that complies to ISO14001 and have stated the Company's commitment to good environmental practice to our Environmental Policy. This document expands on that policy as it relates to waste minimisation.

The company is committed to sustainable waste management and will continue to develop waste minimisation strategies at our fixed locations and sites throughout the UK.

Our waste minimisation goals are to: -

- Prevent and / or reduce waste
- Reuse materials where possible
- Recycle waste
- Send minimum amounts of waste to landfill

To achieve our goals for waste minimisation, the company will: -

- Utilise Site Waste Management Plans (SWMP's) on all our construction sites or work with the Principal Contractors to ensure good waste management practices and minimise harm to the environment.
- Cultivate a work ethic with a high level of awareness of waste minimisation and recycling through providing advice to employees and supply chain where required.
- Encourage the purchase of recycled materials and those that are suitable for disposal by recycling, and conserve natural resources.
- Encourage designers employed by the company to design out waste where possible.
- Favour suppliers who remove packaging as part of their supply contract obligations, and who operate according to best available environmental practices.
- Keep abreast of current technologies available for recycling waste and investing in equipment where economic to do so.
- Minimise waste by encouraging the exchange and reuse of equipment and materials amongst departments.
- Minimise waste through collaboration with the National Industrial Symbiosis Programme (NISP) for exchange of waste externally.
- Commit to the `following waste to landfill initiative as developed by the Waste Resources Action Programme (WRAP).
- Develop a range of Companywide recycling schemes.
- Promote economy in the use of paper and the selection of print formats and document styles in line with this.

The Company will comply with its Duty of Care with regard to waste legislation ensuring waste is held securely and transferred to those authorised to take it, ensuring the use of Waste Transfer Notes and Hazardous (Special) Waste Consignment Notes to demonstrate safe disposal of all waste in a way that will protect the environment and public health. We will endeavour to manage waste in a cost-effective manner that maximises environmental benefits and minimise long term financial liability.

This policy will be communicated to all employees, supply chain, and made available to the public.

Signed: M McDermott Date 01/02/2026

Mr Martin McDermott, Managing Director
